DETAILED ACTION

Double Patenting

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claim1, 3-9, 11-24, 26-31, 38, 44-49 are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-45 of copending Application No. 3003/0026348. Although the conflicting claims are not identical, they are not patentably distinct from each other because

a. Claim 1 of the present application encompasses all the limitations of claims 1 and 2 of the copending Application.

b. Claims 3-7 of the present application encompass all the limitations of claims 3-7 of the copending Application.

c. Claim 8 of the present application encompasses all the limitations of

claims 8 and 10 of the copending Application.

d. Claim 9 of the present application encompasses all the limitations of claim 9 of the copending Application.

e. Claim 11 of present application encompasses all the limitations of claims 8 and 11 of the copending Application.

f. Claims 12-14 of present application encompass all the limitations of claims 12-14 of the copending Application.

g. Claim 15 of the present application encompasses all the limitations of claims 8 and 15 of the copending Application.

h. Claims 16-23 of the present application encompass all the limitations of claims 16-23 of the copending Application.

i. Claims 24-25 of the present application encompasses all the limitations of claims 24-25 of the copending Application.

j. Claim 26 of the present application encompasses all the limitations of claims 24 and 26 of the copending Application.

k. Claim 27 of the present application encompasses all the limitations of claims 24 and 27 of the copending Application.

l. Claim 28-30 of the present application encompasses all the limitations of claims 28-30 of the copending Application.

m. Claim 31 of the present application encompasses all the limitations of claims 31 and 32 of the copending Application.

n. Claims 44-45 of the present application encompass all the limitations of

claims 44 and 45 of the copending Application.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Allowable Subject Matter

3. Claims 46-49 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
